LONG NEWSLETTER OR FAMILY EMAIL

Create Something Meaningful — and Share It with 365 for Kids

Children often create their best ideas after hearing a story, discovering something new, or reflecting on a meaningful moment. The 365 for Kids year-round Share Portal gives families an opportunity to submit original child-created artwork, writing, or audio for review and possible publication.

A parent or legal guardian must complete the submission. Before submitting, families should review the instructions carefully and remove unnecessary personal information from the file. Do not include a child's full name, face, school information, home address, contact information, social-media details, or other private or sensitive information.

All submissions are reviewed before publication. Submission does not guarantee approval or publication. The Share Portal is a year-round creative opportunity and is separate from the annual 365 for Kids initiatives.
